THURSDAY, JUNE 9.
The bill which compels Illinois land owners to either improve or quit their holdings at the end of six years now only awaits Governor Oglesby's signature to become a law.

The youngest teacher in this State is Miss Barbara Hemes, of Fredonia, who has passed an examination for a third-grade certificate in both Ozaukee and Sheboygan counties, at the age of only 13 years.

Collector Saltonstall, of Boston, has imposed a fine of \$1,000 upon the Cunard Steamship Company for permitting an insane woman to land from one of its vessels. The ship will not be granted a clearance until the fine is paid.

Postmaster General Vilas has about 95,000 men under him, probably the largest force of any civil officer in the world. It takes that many men and women to handle all the letters which the people of this country write to one another every year.

Chief Justice Waite, of the United States supreme court, will attend the Yale College Commencement this month. He graduated from the college just fifty years ago, and is still in sound and vigorous health, although he has done a vast amount of hard work.

The New Hampshire legislature now in session at Concord, is canvassing for a candidate for United States senator to fill vacancy caused by the death of Senator Austin F. Pike. It is generally conceded that Hon. W. E. Chandler, ex-secretary of the navy, will receive the republican nomination.

Dr. O. P. Wolcott, one of the best-known physicians in Milwaukee, was Tuesday swindled out of \$5,000 in cash by lottery sharks. The doctor is 54 years old. He was lured into the game by a young man who claimed to be the son of Hamilton Dye, president of a bank in Detroit, an old acquaintance of Dr. Wolcott.

The wheat crop of Ohio is estimated by the state board of agriculture at 301,000,000, a shortage of 6,270,000 bushels as compared with the average of the past seven years. The prospects of oats and meadows have been improved by the recent rains. The wheat crop of California will fall considerably below that of last year.

The Iowa republicans state a central committee fixed the date and place of the State convention for August 24 at Des Moines. The candidates to be nominated will consist of governor, lieutenant governor, superintendent of instruction and one justice of the supreme court. The democratic committee will meet on June 15. Republicans believe that Governor Larrabee and Lieutenant Governor Hull will be re-nominated.

The Pacific railway company completed its Boston hearing Saturday, when Mr. Charles Francis Adams made a statement of the wrongs and hardships inflicted upon the innocent Union Pacific corporation by a tyrannical and remorseless government. Time was when Mr. Adams looked upon the matter in a very different light, but that was before he became president of the Union Pacific at a salary of \$100 a day or more.

The perennial fishery dispute with Canada has broken out in a new place, Sixa boats, with four tons of fish caught in Georgian bay, and consigned to a Detroit firm, have been seized by the Canadian customs inspectors at Victoria harbor, and the consignor will appeal to the Dominion government for redress, failing in which they will seek relief in the courts. They claim that all the requirements of Canadian law had been fulfilled.

Fred. Douglass has returned to London from a tour of nine months on the continent and in Egypt. His first visit to England was made forty-one years ago, when he was a slave. His owner agreed to sell him for \$750 and the money to purchase his freedom was given by Ellen and Anne Richards, of England, who are one of the pleasant things about Mr. Douglass is a visit to these venerable sisters.

The steamship Umbria has lowered the record of ocean steamships from Liverpool to New York. Her time from Queenstown was six days four hours and twelve minutes. The total distance traveled was 2,848 miles, making an average speed of nineteen and one-half knots an hour. The record of the Umbria has been the best, but the time is reduced over one hour by the Umbria. The best day's run was made on Saturday being 431 miles.

The fund for the monument to Theodore Parker, over his grave in Florence, Italy, is growing steadily. Contributions come from all parts of the world. Senora Concepcion Arenal, the Spanish author and reformer, subscribes, saying: "Parker died far from the spot where he was born, but he does not lie in a foreign land. The country of such a man is the whole earth." Mr. Edward Warriner, sends a contribution from Stockholm, Sweden. Some discussion has arisen concerning the design of the monument. It seems now to be settled that the original plan and simple structure, which accords with Mr. Parker's own taste, shall be preserved with the addition of a bronze bust or medallion.

Half a million are already subscribed for the vast Episcopal Cathedral to be built in New York City. This amount was secured before the opening of the books on Monday, the 6th. The total cost will probably reach 12,000,000. D. Willis James, a well known Presbyterian, has

expended \$100,000 toward the fund. In speaking of the influence of the cathedral he says:

An imposing cathedral in this great commercial and financial center, where material things necessarily hold such sway, would teach a lesson of firm faith in the reality and value of things unseen, and be a lasting monument of a living faith in Christ. Its beneficial influence on the church of Christ of all names throughout the whole of this great nation, which contains before a cathedral could be completed a population of over 100,000,000, no one can fully estimate. But I feel too thoroughly convinced that no other expenditure would have such a beneficial influence upon the whole church of Christ and on the nation at large. While I fully recognize that the circumstances of the case require that such a cathedral be erected, my interest in the work is not merely that it be erected, but that the blessing will extend to the church of Christ of every name, and be a permanent power for good to the nation through its entire history.

PRESIDENTIAL CANDIDATES.
Below is a table in which are arranged the great candidates of the two great parties—the first column of names giving the successful candidates, the other his unsuccessful opponent. It is a very valuable tabulation of fact:

1876	G. Washington	No opposition.

2088	G. Washington	No opposition.
2092	G. Washington	No opposition.
2096	G. Washington	No opposition.
2100	G. Washington	No opposition.

This table is made the subject of a good deal of figuring on presidential possibilities. It is pointed out that three times therein is shown the renomination and success of the principal candidate who was defeated at the election next before. This happened in the instances of Johnson in 1860, Jackson in 1828, and Harrison in 1840. Once in the instance of Pierce, in 1854, there was such a renomination and a repeated defeat.

On the other hand, the fact is equally patent that in seven cases there have been re-elections to the presidency for a second term—in the instances of Washington, Jefferson, Madison, Monroe, Jackson, Lincoln and Grant.

An Indolent Organ.
When the liver is indolent, as it must necessarily be when it fails to secrete the bile in sufficient quantities to meet the requirements of digestion and evacuation, it should be set at work by the use of a cathartic. The best cathartic is one that stimulates to activity without the use of any powerful alterative, speedily evincing itself by a departure of the unaccountable constipation in the right side; the natural, free action of the bowels, and the most desirable consequence upon inactivity of the liver and the diversion of the bile from its proper channel. Irregularity of the bowels is always and invariably formed by the corrective instilled, which is infinitely to be preferred, both because it is safe and more efficacious to blue pill, calomel and other purgatives of every class. It cures and prevents fever and ague, and rheumatism.

Marriage of Dan Kier, the Showman.
SHELLENDON, Texas, June 9.—Col. Dan Kier of Cincinnati, the showman, was married here Wednesday morning, the bride being Mrs. M. C. Robinson, one of the wealthiest ranch owners in Lawrence county. The marriage was solemnized by Rev. A. P. Forster of Hallettsville. The bridegroom is something over 70 years old, while the bride is 45. The bride is worth over \$100,000 in her own right, while her children are all independently rich.

Pool-Selling Unrested in New York.
NEW YORK, June 9.—A case made to determine whether or not the sale of forbidden pool-selling in this State, except on race tracks, will prevent pool-selling from taking commissions in this city to make bets on the races was decided Wednesday, the court holding that the practice is not contrary to law. This leaves pool-selling in New York and other cities in the State practically unrestricted.

From the Hon. B. F. Hanner.
No. 23 West 24th St., New York, Feb. 15, 1887.—I find Alcock's Plasters of inestimable value and do not like to be without them in my house. I have used them with marked benefit in rheumatism, neuralgia, coughs and colds and pains in sides and back. I consider them the best external remedy known. Will be pleased to answer any inquiries.

AFTER CHANDLER'S SCALP.

DEMOCRATS AND REPUBLICANS TO COMBINE AGAINST HIM.

The Road That Leads to the Senate.

Concord, N. H., June 9.—The Republican members of the Legislature held a conference yesterday to consider the question of electing a United States senator for the full term, beginning March 4, 1889, but they ended just where they began, and the question is still open. Mr. Moore of Nashua was the principal spokesman for one term and Chandler for the full term. The latter, however, said that a bill would come before the Legislature providing for a meeting in January, 1889, instead of June, and, if passed, the Senate should be left for that Legislature to fill. The opposition men's little effort to carry their point after the vote was content with letting the matter rest undecided.

The situation has changed somewhat since last week, and it is practically certain that Chandler will receive the nomination to-night, when the election is held, but the chances for election have grown very much less during the past few days, and the greatest bolt ever known in New Hampshire politics will undoubtedly follow. Many Democrats say they can name the next Senator from this State. The prospect of a combination by the anti-Chandler Republicans and Democrats is certainly vastly greater than it was twenty-four hours ago.

In an interview with one of the brightest Republican politicians in the State yesterday, it was ascertained that the contest would shortly assume a new, and to most persons, an unexpected, phase. He asserted that a movement was on foot, in which, however, he had no part, which would reduce Mr. Chandler's chances of election to a minimum.

The Hon. C. Cheney, who was appointed by Gov. Currier to fill the vacancy caused by the death of Senator Pike, would, he said, be the man upon whom the Democrats and anti-Chandler men would unite. Cheney, he said, was in every way acceptable to the Democrats, and the outcome of the contest is, he said, a foregone conclusion. Chandler, he said, would not be a candidate for the long term. That was accepted as a tact admission that he would not refuse to serve for a short term. Congressmen J. H. Gallinger is one of the most promising candidates for the long term, and a combination between the Cheney and Gallinger men might be made a very strong alliance. It can be no doubted that the Chandler faction is becoming alarmed, and the outcome of the contest is, he said, a foregone conclusion.

LATER.—The friends of Rollins, who has withdrawn from the senatorial contest, will now support Morrison, and they threaten to do so. The Chandler men, on the other hand, agree to their proposal to elect Morrison for the short term, and Chandler for the long term. The situation is critical. Morrison's men can defeat Chandler by a combination with the Democrats and they threaten to do so. The democratic caucus nominees will be Harry Bingham. The Republican caucus last night nominated the following State officers: State Treasurer, S. A. Carter; State Printer, John B. Clark; Commissioner General, A. S. Twitchell.

THE PRESIDENCY.

Gov. Parker Declares Himself in Favor of John Sherman.
CINCINNATI, Ohio, June 9.—Gov. Parker was interviewed by a reporter yesterday. He said: "I am a Sherriman man, and a strong one. There are no candidates for president more than Blaine in this State, but the best of my knowledge there is no attempt being made and no attempt will be made to antagonize Sherman or to form any organized Blaine movement in Ohio. I have no doubt in the world that if delegates to the National Republican convention were to be selected to-morrow Ohio would send a solid Sherman delegation."

"You're sure now, Governor, that you're not going to see the same role played by Sherman in 1889 that Garfield played in 1880?"

"Now, that's unkind. I think that even my enemies will admit that if I have a radical change of mind, it will be in favor of Sherman, and you can tell the world if there's any doubt about it, that I'm for Sherman. For I was for Blaine I'd say so. If I was for Parker I'd say so."

The Governor thinks that the labor party will not get a very heavy vote in Ohio this fall, but not enough to elect its ticket. The probability will fall behind last year. He declared that he was not a candidate for any office.

A Base Ball Player Seriously Injured.
PITTSBURGH, Pa., June 9.—During the Toronto Newark (N. J.) ball game here Tuesday evening, a base ball was thrown at a player on the left side of the head behind the ear. He fell to the ground unconscious. Two doctors were promptly in attendance and he was carried into the dressing room and restored to consciousness. He then made his way toward recovery, but at late at night, when he was taken with a rupture while walking in a corridor of the Rossin House. His condition is now considered critical.

The Bull Scorn.
The following is the result of the bull games played Wednesday, the games being played on the grounds of the first named club: Chicago 8, Indianapolis 3; Philadelphia 4, New York 7; Washington 3, Boston 2; Brooklyn 1, Cleveland 4; St. Louis 10, St. Louis 7; Metropolitan 1; Baltimore 13, Louisville 6; At Philadelphia, Cincinnati 9, Athletics 3; Kansas 6, Wheeling 3; Danville 6, Minneapolis 2.

Renew Her Youth.
Mrs. Phineas Chubb, of Putnam, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with many complaints and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Balm for having renewed my youth, and removed completely all disease and pain." Another Operation on the German Crown Prince's Throat—Archbishop Walsh Advises Moderation.

LONDON, June 9.—Evidence is accumulating that the French Government had adopted most heroic measures to meet a popular uprising on the occasion of the recent Cabinet crisis. Some of the official orders promulgated, clearly indicating the apprehensions of the authorities, are finding their way into print. One of the most curious comments made upon them is that the very perfection of the discipline which Gen. Boulanger had inculcated in the troops was relied upon by those who overthrew him. Gen. Sautter, by order of President Grevy, had the gardien of Paris under arms twenty-four hours, ready to suppress any revolt. This was before he was made minister of War and while he was merely considering the offer of the portfolio which he in fact finally refused. Gen. Boulanger, of course, must have known Gen. Sautter, and he had no sign of the discipline which he had inculcated in the troops. They claim that he was in fact in the position of a Caesar refusing a throne offered by the people.

Jumped Donovan Arrested in London.
LONDON, June 9.—Larry Donovan, the bridge-jumper, was arrested yesterday at the 20th-century theatre, on charges of disorderly conduct. He attempted to jump from the Westminster bridge in the afternoon, but was arrested before he could reach the water. The officer who arrested him, however, was not a policeman, but a private detective. Donovan was taken to the police station and is now being held there.

Another Operation on the German Crown Prince's Throat.
DURHAM, June 9.—Dr. Mackenzie, in the presence of and assisted by Professors Weyner and Bergman and other eminent physicians and specialists, performed another operation upon the throat of the German Crown Prince Frederick William yesterday, still further reducing the size of the foreign growth by removing all parts consistent with the safety of the patient. The operation was very successful. The Crown Prince expressed himself as greatly encouraged by the assurance of his physicians that his permanent recovery was now assured. He left for London on Monday. During his stay in England he will be under the care of Dr. Mackenzie and will remain under his treatment until thoroughly cured.

Archbishop Walsh Curses Moderation.
DURHAM, June 9.—Archbishop Walsh, in transmitting Timothy Harrington, M. P., the sum of £200, forwarded through him to the League South for Irish residents of Kin-borough, South Africa, with a letter expressing the hope of the donors that the people of Ireland would be able to do something for the League of English, and the work of the League of English would be done. The Archbishop said that the moderate course of Mr. Farrell, himself and other political leaders in the Irish cause will not be thrown away. As long as the national movement is kept within the present limits, Irishmen can safely defy the most strenuous efforts made to shatter them at Rome, and especially may they disregard with the utmost confidence efforts, no matter how numerous to persuade the Pope that the Nationalists are revolutionaries.

Michael Davitt's Wife.
DURHAM, June 9.—Michael Davitt's wife, another speech at Ballydoon Wednesday. He said he had received a letter from Mrs. Davitt intimating that if he should be arrested she would speak at the elections in his stead. For the last eight years he has been in prison, and he has been in prison for the last eight years. He said that he was in prison for the last eight years, and he was in prison for the last eight years.

THE RACES.

Some Fast Horses on the Track.

THE SPORT FOR NEXT WEEK.

The fair grounds present a very busy scene at this time; many important improvements are being made by the Driving Park Association. President James Van Dine is giving his personal supervision to the widening of the entire homestead of the track. This will be of great advantage in the "soaring up" of the large fields of horses entered here, and add to the animating scenes of the races as more horses can come up abreast.

A dozen carpenters are engaged in building roomy and comfortable stalls for the accommodation of the horses to be here next week.

The entries exceed one hundred and twenty, but there are many horses who the different stables that have no engagements here will still be in the number of the hundred and fifty of the very best of the turf horses of America.

In addition to the horses already here, there arrived to-day, the stables of John Splun and Geo. J. Fuller, two of the most noted drivers in America. Mr. Fuller has at the head of his stable, Patton, now four years old. This young horse has the champion record for three year olds—2:10½; he is engaged in the great free-for-all; although but four years old, Mr. Splun's stable is the winner long 2:19. Mr. Splun's stable is exceptionally strong; in fact that he has any horse in his stable is sufficient evidence of the superiority of the animal.

Peter Johnson also arrived this morning with his stable of six, among them the local favorite, "Nestor," owned by John Grubbs. "Nestor" we hear it stated that Nestor can trot in 2:30.

Mr. Kelly from Chicago arrived with Mr. Johnson and he has four with him, two 2:25.

From the present time to the commencement of the races, the fair grounds will furnish pleasant entertainment to those who take pleasure in witnessing great fights of speed. Admission of course gratuitous.

The Driving Park Association have generally agreed to add two hundred and fifty dollars extra to the winner of the free-for-all. This will insure a stubborn contest and hard fought race. Never has there been so many very fast horses pitted against each other on any track in the United States as are to start over our Janesville track.

HORSE TRACK.

Piano Boy, the bay horse that was trained on our track this season by Harry Spooner, won the three-minute race at Freeport. The time was excellent for a three-minute race, every hour in 2:30 or better. Piano Boy is entered here in the 2:35 class; if he wins here, he will have to beat 2:25, which he can do.

We congratulate the officers of the Janesville Driving Park association at the generous response of the noted trotters of America, and trust our readers may also show due appreciation by a very liberal attendance. They may never see as many good horses grouped together again.

THE ODDFELLOWS.

Officers of the Grand Lodge—The Insurance Branch.

At the session of the Wisconsin Grand Lodge of Odd Fellows at Madison yesterday, there were upwards of five hundred delegates present. The following officers were elected for the ensuing year: Grand Master—George B. Kipper, Star Prairie.

Deputy Grand Master—T. K. Dunn, Elroy.

Grand Warden—Lillian Rich, Floriston.

Grand Secretary—B. Hills, Madison.

Grand Treasurer—David Adler, Milwaukee.

Grand Chaplain—Rev. Justin Jacobs, Waterville.

Grand Representative for the term of two years, John G. Clark, of Lancaster.

Grand Representative for the unexpired term of James M. Craig, Loma Silver, of Milwaukee.

After the adjournment of the Grand Lodge for the day, the insurance branch of the order held a meeting and elected directors for the term of three years as follows:—Louis Silver, Milwaukee; J. W. Haddon, Madison; Andrew Millard, Beaver Dam.

The report of J. W. Ostrander, secretary of the insurance company, shows the work of this organization to be in a most prosperous condition, there having been paid to the families of 655 deceased members during the past eighteen years \$942,000. The number of certificates in force March 31, 1885, was 7,045; certificates issued during the year, 425; total, 8,075; certificates terminated by death, 115; number lapsed, 200; certificates now in force, 7,760, showing an increase of 110 to the membership.

The total receipts for the year were \$154,392.67, and the disbursements for the same period, \$154,522.67, with assets in cash and securities, \$2,950,003.

THE BEAUTIFUL PISCINE.

Now let us to the woodland bide, where trees their verdure wear, for spring no longer lingers in old burly winter's lap. In picnic garb we'll embrace forth and sit beneath the trees and have our hides all chopped and backed with stings of bumble bees. We'll gaily don our linen coats and these crockery pants, and sit beside the gurgling stream while o'er us crawl the ants. We'll swallow whole lemonade to moisten down our grub, which people make by soaking our cheap lemon in a tub. The guileless lemon we shall eat, devour the clammy pulp, and sit on bowls of nastard while a tear bedams our eyes. We'll put the mustard in the jam, the pepper in the tea, and try with all our might to show that we are filled with glue. Then let us to the picnic bide, our basket in our hand, and homeward come filled up with woe, and leaves and dust and sand.—Adrian Globe.

A. O. U. W. Attention!

All members of Olive Branch Lodge No. 35, A. O. U. W., who desire to attend the state annual picnic at Madison on June 23rd, are requested to leave their names at Palmer & Stevens' drug store or report at the lodge on Friday evening of this week. Reduced rates on all railroads. WM. MARSDEN, Recorder.

A LAMP EXPLOSION.

Sets Fire to the Shopiere Floeing Mills This Morning.

The Mills, with Contents, Are Entirely Destroyed.

Loss Estimated at \$10,000. Insured \$3,000. (Special to the Gazette.)

STORRENS, Wis., June 9th.—This forenoon about 9:30 o'clock, the Shopiere flouring mills caught fire, and were totally destroyed. The fire was caused by a son of Mr. Geo. Sears, falling with a lighted lamp, which exploded. The fire was supposed to be subdued, and the attention of those present in the mill was occupied in attending to the young man, who by his fall was badly injured. During this time the flames again got under headway, and as they were in the upper part of the building, the efforts of the citizens were confined to saving the books and some of the grain and flour in the mill—no great amount.

The loss which is not far from \$10,000, falls heavily on Mr. Sears, who has encountered many losses by floods, etc., during the last year. The amount of insurance is light—about \$3,000—placed in Beloit agencies.

By the united efforts of the citizens the fire did not extend beyond the mill, although numerous buildings caught fire and were in constant danger of being consumed.

This is a heavy blow to the village interests as well as to the proprietor, as in the present depressed state of the milling business there is no encouragement to rebuild the burned mill.

THE BATHING IN THE RACE.

To the Editor.

As an employee of the cotton mill, I feel called upon to refute the scandalous lie in this morning's Recorder, in regard to girls bathing in the race, by the cotton mill. That a few little boys were bathing, is a fact, from which the scandalous lie was founded. The Recorder was careful to guard against stating that they were cotton factory girls, but the inference easily drawn, is that they were. The indignation of the girls in this mill, can easily be imagined. Should the local man on the Recorder be treated to a free ride and pitch and feather accompaniment, some might, it would be no more than he deserves. I have been more a cotton mill for all my life and can say I never have been associated with more modest, lady-like girls than are employed in the mills in this city. That such an article should appear in the Recorder should be no surprise to the readers, who have seen the items which had preceded it days before—better fitted for the Police News than for a local city paper. H. G. ARNOLD.

PERSONAL.

—Mr. and Mrs. Adam Hayner, of Chicago, are visiting in the city.

—William Snow, a knight of the shears formerly well known in the city as "Happy Jack," has returned and is fitting up a shop.

—Mrs. Henry Lovejoy and children of Plankinton, Dakota, are the guests of Mr. Lovejoy's parents, Mr. and Mrs. Washington Kelly, Locust street.

—Captain Newman has returned home from the national military camp at Washington. The captain visited several interesting points in the east, including Mt. Vernon, the Bartholdi statue, and his old home at Binghamton.

—Captain Edward Rager left for Michigan to-day to take charge of one of the most important pieces of hydraulic engineering in the northwest. A company has been formed to utilize the water power at Sault Ste. Marie. With Lake Superior for a mill pond and the fall of eight feet the value of the improvement will be great. Captain Rager is to have entire charge but will only be away from Janesville on this trip for more than three weeks.

A Young Physician's Declining.

The St. Paul Pioneer Press tells this story about one of the prominent physicians of that city. When he was 15 years of age he left home to search school in a neighboring village. He had expressed a strong taste for the medical profession, and when he returned home the next morning his father told him that he was going to study medicine in a neighboring village. "Sturdy" exclaimed the boy, "why I have been practicing all winter." His father then learned that an epidemic of measles had struck the neighborhood within his hospital was swarming during the winter and that he had brought a case of measles, and up on the disease and set himself up as a healer with great success. His spare time after school hours put in this way had laid the foundation of his future professional reputation.

Had to Give it Up.

It is told of Thomas, now assistant bishop of Kansas, was removed in youth and after his graduation as a chess player, he was unable to give up his favorite game. He found that I took so much interest in the game that when I was beaten, it annoyed me so much that I could not consistently undertake it. There was nothing left for me to do but to give up chess.—New York Tribune.

Sevanta's Little Daughter.

Mrs. Emma Nevada and her husband, Dr. Palmer, have a pretty little Sevanta-old daughter named Mignon. The child was born in France, her mother is an American and her father is an Englishman. Moreover, Mrs. Nevada will talk French to her. Dr. Palmer will talk English and the nurse will speak only German, so the little one knows to be quite cosmopolitan.—New York Tribune.

The Late Thomas Stevenson.

The late Thomas Stevenson, the eminent Scotch engineer, was the father of Mr. Robert Louis Stevenson, the popular writer. He was the author of many valuable inventions, particularly relating to light houses, but as he was engineer of the light house commission he declined all personal profit from them.—New York Tribune.

Shooker's Advice.

The best advice in the world for any business man, is to keep his eyes open, and let his ears be shut.
